What can you expect from your locality worker?

- To facilitate entry into CAMHS
- Every School, College, Early Help Team, Social Care Team and GP practice will know who their CAMHS worker is
- Partnership working to discuss and support the needs of individual children and young people. This will include the CAMHS worker convening a multi-agency meeting around a child or young person as appropriate
- The locality worker will step up – step down cases to ensure children and young people are better supported and do not enter unnecessary services
- Joint visiting where possible to ensure families do not experience excessive appointments
- Closer liaison for training, education and a greater awareness of children and young people’s mental health services
- Using more technology to support young people
- Consultation and liaison with key workers, Schools, Colleges, Early Help Teams, Social Care Teams, GPs and other practitioners who work with young people
- See children and young people in a venue that is closer to home, which is appropriate and helps the young person and family to engage and get the most from our service

If you are unsure and you think it is CAMHS, please speak to your locality worker

How to contact us

Your Named Locality Worker
